

Experience

Vero / Product & Digital Designer

SEP 2018–PRESENT

- Designed, built and iterated on various touch points for visual and brand consistency; drove incremental UI/UX and CRO improvements through data analysis.
- Created marketing and sales collateral like one-pagers, decks, and visuals
- In 2023, I transitioned into a Product Designer role, leading UI/UX efforts on features and crafting user flows that elevated the experience, all while continuing to work on marketing and growth design.
- Designed smaller features and interaction details that made the product feel more polished and cohesive.
- Collaborated, evolved and maintained a shared design system, ensuring consistency, and alignment across product experiences.
